

## List of companies – Recommended Prospects

### Alternative Energy & Environmental

Updated July 2011

Company Name	Logo	Website	Description
<b>Admir Environment</b>		<a href="http://admir-eco.co.il/">http://admir-eco.co.il/</a>	Design and implement projects in the field of Environmental Engineering.
<b>Amcor Solar Energies Ltd (solar)</b>		<a href="http://www.amcor-solar.co.il">http://www.amcor-solar.co.il</a>	Solar and Electrical heating systems for the Israeli and international markets.
<b>Arava Power (solar)</b>		<a href="http://www.aravapower.com/">http://www.aravapower.com/</a>	Solar Power developer
<b>BrightSource Energy (solar)</b>		<a href="http://www.brightsourceenergy.com">www.brightsourceenergy.com</a>	Large scale solar plants that deliver low-cost solar energy Industrial and utility companies
<b>C.E.S. Computerized Electricity systems</b>		<a href="http://www.c-e-systems.com">http://www.c-e-systems.com</a>	Developed complete energy management system that provides functionality and energy efficiency to all types of residential buildings and commercial facilities. The patented solution aligns interests between consumers, building managers and energy suppliers to yield efficient usage, savings, and better quality of service.

<b>Cell Era</b> (fuel-cell)		<a href="http://www.cellera-inc.com/">http://www.cellera-inc.com/</a>	Developed a revolutionary Platinum-Free Membrane Fuel Cell (PFM-FC) technology, which maintains the advantages of today's leading low-temperature Polymer Electrolyte Membrane Fuel cells (PEM-FC), while alleviating the major cost factors.
<b>Chromagen</b> (solar)		<a href="http://chromagen.com/">http://chromagen.com/</a>	Production of solar water solutions
<b>Citrine Renewable Energy</b>		<a href="http://www.cre-biomethane.com">www.cre-biomethane.com</a>	Cost effective conversion of biogas generated by landfills, waste water treatment plants, and other sources of biological waste into high value natural gas. Natural gas vehicles
<b>Elsol Solar Energy Systems</b> (solar)		<a href="http://www.elsol.co.il">www.elsol.co.il</a>	Specializes in the design and marketing of solar thermal systems, cogeneration and energy saving products
<b>EnStorage</b> (fuel-cell)		<a href="http://www.enstorageinc.com/">http://www.enstorageinc.com/</a>	Develops low cost regenerative fuel-cell (RFC) energy storage system (ESS) for power grid load leveling. Solar and wind power generation plants.
<b>G.Systems Ltd.</b>		<a href="http://gsystems.co.il/">http://gsystems.co.il/</a>	Designs, manufactures and distributes various products related to renewable energy.
<b>Green City Urban Recycling LTD</b>		<a href="http://www.gcity.biz/">http://www.gcity.biz/</a>	Company in the field of waste to energy, and Biofuels
<b>IQWind</b>		<a href="http://www.iqwind.com/">http://www.iqwind.com/</a>	Technology start-up in the wind energy ecosystem aiming at developing a mechanical add-on to both existing and new wind turbines. Gear system solves a technology limitation of wind turbines that reduces their potential to harvest wind energy.
<b>Linum Systems</b> (solar)		<a href="http://www.linumsystems.com/">http://www.linumsystems.com/</a>	Developing a hybrid solar air conditioning technology which provides heat-driven cooling and heating, and seamlessly switches to electricity-driven mode during off-sun conditions.
<b>Metrolight</b>		<a href="http://www.metrolight.com/Templates/Default.asp">http://www.metrolight.com/Templates/Default.asp</a>	Energy-saving solutions and new concepts for HID lighting applications. HID (high intensity discharge) Lamps Manufacturers Distribution / OEM.

<b>Millennium Electric T.O.U Ltd.</b> (solar)		<a href="http://www.millenniumsolar.com/">http://www.millenniumsolar.com/</a>	Designs, develops, installs and provides Photovoltaic (PV) solar energy systems and a wide variety of solar energy related services . Products include Multi Solar Systems that both generate electricity and produce hot water.
<b>Pythagoras-solar</b> (solar)		<a href="http://www.pythagoras-solar.com/">http://www.pythagoras-solar.com/</a>	Provides innovative Building Integrated Photovoltaics products which combine energy efficiency, solar power generation, and transparency to enable aesthetically-pleasing, self-powered buildings.
<b>Rand Solar Energy Systems</b> (solar)		<a href="http://www.rand.co.il">www.rand.co.il</a>	Manufactures and sells Solar Thermal Energy Systems; Storage tanks, Boilers, Solar Collectors.
<b>SLB Ltd.</b>		<a href="http://www.slb-hid.com/">http://www.slb-hid.com/</a>	Energy save devices for lighting
<b>Solar Power Israel Ltd.</b> (solar)		<a href="http://www.solarpower.co.il/en/">http://www.solarpower.co.il/en/</a>	System integration (EPC) and project development company which provides renewable energy solutions. Design, integrate, supply, install and develop solar energy projects for various applications.
<b>Solarit Doral</b> (solar)		<a href="http://www.solar-it.co.il">http://www.solar-it.co.il</a>	Develops residential and commercial solar systems and system components.
<b>TechnoSpin Wind</b>		<a href="http://www.tswind.com">www.tswind.com</a>	Low-power wind energy systems for residential rooftop installation Housing, Developments, Power distributors. Distribution / OEM
<b>Vision Motor Corp.</b> (fuel-cell)		<a href="http://www.visionmotorcorp.com/">http://www.visionmotorcorp.com/</a>	Vision is a provider of plug-in electric/hydrogen fuel cell powered vehicles and turnkey hydrogen fueling systems. Vision's proprietary plug-in electric/hydrogen fuel cell drive system combines the superior acceleration of a battery powered electric vehicle with the extended range provided by a hydrogen fuel cell.
<b>Vortex</b> (pollution control)		<a href="http://www.vortex-envirotech.com">www.vortex-envirotech.com</a>	Industrial Pollution Control systems Engineering Companies, System Integrators. Distribution / OEM

**Wi-charge**

<http://www.wi-charge.com/>

Provide safe reliable and low cost wireless transmission of power.
