Water Waste Management & Clean Tech

Updated July 2011

Company Name	Logo	Website	Description
Amiad FiltrationSystems		http://www.amiad.com/	Developing and marketing water filtration solutions for industrial, municipal and irrigational use. Our automatic self-cleaning filters and manual filters have built a worldwide reputation for effectiveness, reliability and competence
AquaPure Technologies (water)		www.aquapure.co.il	Patented Oxidation Process water treatment solution, providing effective removal of water contaminants such as MTBE and dissolved metals. Municipal Authorities, Industrial Companies
Aquarius Technologies (water)		www.aquariustechnologies.com	Advanced wastewater treatment technologies Municipal Authorities, Industrial Companies
AqWise (water)		www.aqwise.com	Advanced technologies for performance enhancement, capacity increase and nutrient removal in activated sludge processes in wastewater treatment plants Wastewater Treatment Plants, Municipalities and Industrial Plants. Joint R & D
Atlantium (water)		http://www.atlantium.com/	Water disinfection solutions that help businesses and municipalities build, expand and operate water intensive Processes.

Ayala Water & Ecology Ltd.		http://www.ayala-aqua.com/	Specialize in creation of long-lasting Natural Biological Systems (NBS) for the purification of water, soil and air, and to promote groundwater recharge, flood prevention, and restoration of local flora and fauna.
CheckLight (water)		www.checklight.co.il	Fast, inexpensive, and highly sensitive quality control bioassays to monitor different parameters of water quality. Water utilities and environmental monitoring authorities, Homeland Security Agencies Joint R&D
Citrine Renewable Energy		www.cre-biomethane.com	Cost effective conversion of biogas generated by landfills, waste water treatment plants, and other sources of biological waste into high value natural gas. Natural gas vehicles
Desalitech		http://www.desalitech.com/	Reverse Osmosis desalination and water purification. Technology lowers the average pressure required for reverse osmosis (RO) and provides other advantages, achieving significant operating cost and capital cost savings.
Dorot Water Technologies		http://www.dorot.com/	Private, Medium Wide range of quality control valves Farmers, Greenhouses, Irrigation Systems, Agricultural Equipment Distributors. Distribution / OEM deployed Globally
EZPack Water Ltd.		http://www.ezpackwater.com/en/default.asp	Manufactures advanced Water Storage and Distribution Systems (WSDS). aimed to markets such as emergency, disaster relief, construction and mining industry, military, home and outdoor, and others.
Galil Water Technologies		http://www.gwt.co.il/	Design and execution of municipal and industrial water and wastewater treatment projects.
Hakohav Valves		http://www.hakohav.com/	Manufactures products and solutions to a variety of applications for Water & sewage supply, Agriculture, water treatment plants, Desalination plants, Cooling systems, Industry plants (chemical & petrochemical, food & beverages, paper & pulp & other), Fire fighting systems.
IDE Technologies Ltd.		http://www.ide-tech.com/	Development of advanced desalination as well as innovative industrial solutions.

Mapal Green Energy Ltd.		http://www.mapal-ge.com/English/	Technology that significantly reduces the operations and maintenance cost of municipal and industrial waste water treatment plants.
Mayan WaterTech		http://www.mayan-watertech.com/	Privately owned Israeli Company supplying know-how and products to the water supply industry, desalination, wastewater, agriculture and gardening, as well as the mining industry and other industrial applications.
Mekorot (water)		http://www.mekorot.co.il/eng/Pages/default.aspx	Israel's National technologically advanced water company Desert regions. Joint R&D
Middle East Tube Company Ltd.		http://www.tzinorot.co.il/index.asp	Manufactures and markets pipes for water, sewage, oil and gas infrastructures
Nirosoft Industries Ltd.		http://www.nirosoft.com/	Design, manufacture, installation, operation, and maintenance of advanced water and wastewater treatment systems.
Odis Filtering Ltd.		http://www.odisfiltering.com/	Design, manufacture, installation and commissioning of treatment plants enabling to turn ground water, surface water or wastewater into the quality of water you need.
P2W (water)		http://www.p2w.co.il/Site/pages/homePage.asp	Environment-friendly solutions for industrial wastewater treatment and purification.
Phoebus Energy (water)		http://www.phoebus-energy.co.il/	Developing and implementing environmentally-friendly solutions based on intelligent algorithms that increase energy efficiency and reduce pollution.
Plassim		http://www.plassim.co.il/	Manufacturer of plastic pipes

Romold		http://eng.romold.co.il/profile.php	Development and production of plastic in rotational molding technique. Sewage and drainage chambers, communication chambers, products for environmental attending, grease separators, oil/fuel separators, drum pallets, water tanks .
SWDP Ltd.		http://www.swdp.co.il/	Technology proposing solutions to industrial and urban waste treatment problems, including recycle projects.
AST Clean Water Technologies		http://www.ast-water.com/	Development, design, and manufacture of large variety of water and waste treatment, filtration solution and membrane systems
